

COMATCH Hits Two 10K Milestones

10,000 Consultants and Industry Experts now accessible in COMATCH's global talent pool and 10,000 project requests have been received from clients

London, 9th December, 2019 – Driven by its expansion into the US and the UK markets, COMATCH announced it has hit two major milestones, reinforcing its position as one of the world's leading online access points for independent management consultants and industry experts. There are now 10,000 consultants in the network and over 10,000 project requests, at over \$1.3bn value, have been made by clients.

In today's fast moving, tech-enabled, global economy, businesses of all types and sizes are looking for flexible ways to access and manage the high quality talent they need to prosper. The strength of the COMATCH network in supporting this need lies in the quality and breadth of expertise it offers, as well as the ability to match individuals to projects based on 'fit', experience and soft skills. With 10,000 independent professionals, averaging 20 years experience, living in 104 countries and speaking 101 languages, the network is both global and local.

To maintain quality COMATCH has, since its inception, implemented rigorous screening and interview processes for all consultants. Ongoing discussions and frequent, formal contacts deepen knowledge and relationships with every consultant. This understanding, the expertise and experience of COMATCH staff in placing independent workers, plus cutting-edge Artificial Intelligence (AI) matching, guarantees a fast and flexible response to even the most challenging client brief.

"The power truly lies in our network. Whether it is getting better at B2B sales and marketing, working out how to adapt to new omni-channel and digital needs, or providing raw transformation power and expertise, we have consultants and experts who have been there and done it. Our skill is understanding the client and quickly deploying our network," commented Charlotte Gregson, Managing Director, COMATCH UK.

About COMATCH

COMATCH is a curated marketplace for independent consultants and industry experts. Its mission is to reinvent the way organisations assemble the best expertise by combining innovative technology with personal service to help businesses find the best talent for their project or resourcing needs. The company was founded in 2014 by former McKinsey consultants Christoph Hardt and Jan Schächtele. The idea for COMATCH came about when the two tried to work temporarily as independent consultants but realised that there wasn't a platform designed to fit their needs. COMATCH was built as a solution to this problem. Today, it is the leading online marketplace for independent consultants in Europe with offices in Berlin, London and Paris—matching the world's top professionals with organisations of all sizes and focus areas.
